

REQUEST FOR EXPRESSION OF INTEREST (Re-Advertised)

Kigali, on 02/02/2026

Ref No: RW-REG/EDCL-511177-CS-QCBS

Project: Accelerating Sustainable and Clean Energy Access Transformation (ASCENT)

Tender Name: Hiring a Consultant Firm to Conduct Valuation of Properties/Assets for Electrification Projects under a Framework Contract

1.0 INTRODUCTION

The Government of Rwanda (GoR) has received financing from the World Bank/International Development Association (IDA) and Asian Infrastructure Investment Bank (AIIB) towards the financing of the “Accelerating Sustainable and Clean Energy Access Transformation (ASCENT)” Project and plans to utilize part of the funds towards financing of consultancy services to conduct Valuation of Properties/Assets for Electrification Projects under a Framework Contract.

2.0 OBJECTIVE OF THE CONSULTANCY SERVICES

The purpose of the assignment is to conduct valuation of properties/assets affected by electrification projects under ASCENT to allow a fair and just compensation of Project Affected People (PAPs). Specifically, the consultant shall:

- Conduct awareness campaigns and site mobilization of affected people across the project affected area and communicate the cut-off date to PAPs in collaboration with the PIU E&S team.
- Collaborate with local authorities to allow appropriate stakeholders engagement
- Provide accurate and up-to-date market, replacement cost of the project affected properties including land and investment activities that were carried out on the land such as different crops cultivation, forests, any buildings, or any other activity aimed at efficient use of land or its productivity.
- Compile PAPs valuation files/sheets with all necessary documentation required for payment of compensation.
- Rationally analyze and evaluate all claims under different status provided by PAPs, by line Districts and EDCL, and produce genuine valuation reports ready for compensation payment. The claims to be assessed and regularized can be everywhere in different districts. Mainly ASCENT will be implemented in 30 districts of Rwanda

3.0 CONSULTANT’S SCOPE OF SERVICES

The consultant should present a complete property valuation and compensation report to the client in three copies of files signed by all stakeholders indicated below:

- ❖ Beneficiary, or PAP
- ❖ Consultant
- ❖ Local Authorities (Cell & Sector executive secretary and Concerned District)

He should also present a soft copy of report, a map, video (USB&DVD) and picture of the valuated properties. For each report, the passport photo of the beneficiary must be attached.

In context of good collaboration during the contract term and even after its termination, the participation of consultant is very essential in compensation process and making sure that the expropriation files of all PAPs of every project are complete.

The consultant will prepare detailed valuation reports per asset/property including photographs, GPS coordinates, and valuation methodologies.

He/she should also respect the national expropriation law and regulations, WB ESS5, contract terms and the days which will be indicated in service order.

Below are the aspects of WB ESS5 and national law on the Environment that will guide this assignment.

As per the national Law number 32/2015 of 11/06/2015 related to expropriation in the public interest, all peoples affected by the projects must receive fair compensation before the start of any civil works. The calculation of fair and just compensation is to be made by independent certified valuer national price references

4.0 DURATION OF CONSULTANCY SERVICES

The framework contract shall have an initial duration of three (3) years and may be renewed , subject to client satisfaction and need.

5.0 QUALIFICATION OF THE FIRM

The consulting firm should have the familiarity with relevant national and international valuation standards, especially the World Bank Environmental and Social Standards (ESS) especially ESS5 on: Land Acquisition, Restriction on Land Use and Involuntary Resettlement

The interested consultant firm should meet the following requirements:

1. Consultant firm / company should have at least 7 years of experience in the provision of valuation services for fixed property in Rwanda (proven by registration certificate/ incorporation certificate)

2. The Team Leader of the key staff presented should be registered and currently certified by the institute of real property valuers in Rwanda. (with updated IRPV registration certificate).
3. Having executed at least one (1) project/ assignment in property valuation in Rwanda with a contract value not less than 116,000 USD or equivalent in 170,000,000 Rwf in the last ten years starting from 1st January 2015 to date. The required amount may be evidenced through either one single project or cumulative projects completed (not more than three); with proof of good completion and copy of the contract executed.

The Consortium will appoint a Lead Consortium member as the main point of contact with the Client. The Lead Consortium member shall be responsible for managing the advancement of different tasks and organizing different experts if needed.

The TOR will be published on REG website: www.reg.rw

6.0 HOW TO APPLY

Interested consultants should provide the following:

- Expression of Interest
- Copies of certificates proving experience of the firm
- List of key staff with their experience (in table) as required in terms of Reference

7.0 SELECTION PROCESS

The Consultant will be selected in accordance with the **Quality and cost-based selection** set out in the Procurement Regulations.

Shortlisted consultants will be ranked based on number of completed assignments provided with certificates of good completion and contract and list of key staff proposed to implement the project.

The expression of interests must be submitted in written form (electronically) addressed to the Managing Director of the Energy Development Corporation Limited (EDCL) through the following emails: procurement@edcl.reg.rw, copy to cuwajeneza@edcl.reg.rw; jcmudatsikira@edcl.reg.rw not later than 19/8/2026 at 5:00pm Kigali time (GMT +2)

Sincerely,

For

TERMS OF REFERENCE (ToRs) FOR HIRING A CONSULTANCY FIRM TO CONDUCT VALUATION OF PROPERTIES/ASSETS FOR ELECTRIFICATION PROJECTS UNDER A FRAMEWORK CONTRACT.

1. Background

The Government of Rwanda (GoR) has received financing from the World Bank/International Development Association (IDA) and Asian Infrastructure Investment Bank (AIIB) towards the financing of the “Accelerating Sustainable and Clean Energy Access Transformation (ASCENT)” Project and plans to utilize part of the funds towards financing of consultancy services to conduct Valuation of Properties/Assets for Electrification Projects under a Framework Contract.

Energy Development Corporation Limited (EDCL) is a government-owned entity and is implementing ASCENT Project on behalf of the Government.

The implementation of energy projects requires civil works where land acquisition or restriction on land use during or after project completion is inevitable. Therefore, as per World Bank Environment and Social Framework (ESF) especially Environment and Social Standard 5 (ESS5), the borrower needs to ensure that resettlement activities are planned and implemented with fair compensation, appropriate disclosure of information, meaningful consultation, and informed participation of the affected people through site specific resettlement planning namely Resettlement Action Plans (RAPs).

As part of its land acquisition and strategic planning initiatives, EDCL intends to engage a qualified consultancy firm to undertake the valuation of properties across various project affected areas in the country under the ASCENT project.

The property valuation exercise is intended to establish accurate, fair market and replacement values of all movable and immovable properties, assets and investments (land, buildings, infrastructure, crops, trees, etc) affected by the project activities to allow the provision of a fair compensation to potential project affected persons in the electrification projects’ areas including:

- ✚ Construction of Substations (Rwamagana and Muhanga Industrial Park substations) and associated lines
- ✚ Construction of three (3) 5MVA, 30/15kV substations and associated MV feeders (lines) connections at Karumuna (Bugesera), Karengye (Rwamagana) and Mpanga (Kirehe)
- ✚ Inhouse/fill in electrifications activities across 30 Districts.
- ✚ Construction for MV&LV electrification lines, service connections & associated civil works through framework contracts in the City of Kigali, Northern and Western provinces.
- ✚ Construction for MV&LV electrification lines, service connections & associated civil works through framework contracts in the Southern and Eastern Provinces

Overall, the contract will be used across ASCENT sub-projects wherever and whenever a given activity triggers compensation hence asset valuation.

2. Objectives of the Assignment

The purpose of the assignment is to conduct valuation of properties/assets affected by electrification projects under ASCENT to allow a fair and just compensation of Project Affected People (PAPs). Specifically, the consultant shall:

- Conduct awareness campaigns and site mobilization of affected people across the project affected area and communicate the cut-off date to PAPs in collaboration with the PIU E&S team.
- Collaborate with local authorities to allow appropriate stakeholders engagement
- Conduct a comprehensive valuation of all affected properties (including land and investment activities that were carried out on the land such as different crops cultivation, forests, any buildings, or any other activity aimed at efficient use of land or its productivity) during the implementation of electrification and grid strengthening sub-projects under the ASCENT project.
- Provide accurate and up-to-date market, replacement cost of the project affected properties including land and investment activities that were carried out on the land such as different crops cultivation, forests, any buildings, or any other activity aimed at efficient use of land or its productivity.
- Compile PAPs valuation files/sheets with all necessary documentation required for payment of compensation.
- Rationally analyze and evaluate all claims under different status provided by PAPs, by line Districts and EDCL, and produce genuine valuation reports ready for compensation payment. The claims to be assessed and regularized can be everywhere in different districts. Mainly ASCENT will be implemented in 30 districts of Rwanda.

3. MODE OF EXECUTION

The consultant shall present a valuation methodology that comply with the Rwanda expropriation law as well as World Bank's ESS5 especially Full Replacement Cost. The valuer will ensure that the valuation methodology is in accordance with the ASCENT project's Resettlement Policy Framework (RPF) disclosed on REG's website under ESF documents. The valuation methodology shall explain and detail how the full replacement cost will be achieved. "Replacement cost" is defined as a method of valuation yielding compensation sufficient to replace assets, plus necessary transaction costs associated with asset replacement

The duration of the work is a crucial aspect and will form a substantial consideration during technical evaluation. This consultancy services will be based on a framework contract.

The successful bidder will sign a framework contract of 3 year, renewable subject to client satisfaction.

The client has the right to terminate the contract if the consultant did not fulfil his tasks and responsibilities as defined in the tender document. A firm is expected to give a breakdown of work schedules based on areas to be accomplished per unit time

4. Scope of Work

The consultant should present a complete property valuation and compensation report to the client in three copies of files signed by all stakeholders indicated below:

- ❖ Beneficiary, or PAP (Project Affected Person)
- ❖ Consultant
- ❖ Local Authorities (Cell & Sector executive secretary and Concerned District)

He should also present a soft copy of report, a map, video (USB&DVD) and picture of the valued properties. For each report, the passport photo of the beneficiary must be attached.

In context of good collaboration during the contract term and even after its termination, the participation of consultant is very essential in compensation process and making sure that the expropriation files of all PAPs of every project are complete.

The consultant will prepare detailed valuation reports per asset/property including photographs, GPS coordinates, and valuation methodologies.

He/she should also respect the national expropriation law, RSB Standards and regulations, WB ESS5, contract terms and the days which will be indicated in service order.

Below are the aspects of WB ESS5 and national law on the Environment that will guide this assignment.

As per the national Law number 32/2015 of 11/06/2015 related to expropriation in the public interest, all peoples affected by the projects must receive fair compensation before the start of any civil works. The calculation of fair and just compensation is to be made by independent certified valuer in reference to the national price references, and market rates where necessary. Without prejudice to other laws, the value of land and property incorporated thereon to be expropriated in the public interest shall be calculated based on their size, nature and location using national price references, and or the prevailing market rates.

Per the WB's ESS5, when land acquisition or restrictions on land use (whether permanent or temporary) cannot be avoided, the Borrower will offer affected persons compensation at replacement cost, and other assistance as may be necessary to help them improve or at least restore their standards of living or livelihoods.

Replacement" is defined as a method of valuation yielding compensation sufficient to replace assets, plus necessary transaction costs associated with asset replacement. It can be achieved using the following approaches:

- Where functioning markets exist, replacement cost is the market value as established through independent and competent real estate valuation, plus transaction costs.
- Where functioning markets do not exist, replacement cost may be determined through alternative means, such as calculation of output value for land or productive assets, or the

undepreciated value of replacement material and labor for construction of structures or other fixed assets, plus transaction costs.

- In all instances where physical displacement results in loss of shelter, replacement cost must at least be sufficient to enable purchase or construction of housing that meets acceptable minimum community standards of quality and safety.
- The valuation method for determining replacement cost should be documented and included in relevant resettlement planning documents.
- Transaction costs include administrative charges, registration or title fees, reasonable moving expenses, and any similar costs imposed on affected persons.
- To ensure compensation at replacement cost, planned compensation rates may require updating in project areas where inflation is high or the period of time between calculation of compensation rates and delivery of compensation is extensive

5. Key findings in following categories:

- I. Property valuation in Medium Voltage line should correspond to RSB Standards, and RURA guideline.
- II. Property valuation in High Voltage line, Substations should correspond to RSB Standards, and RURA guideline.
- III. Valuation of properties made by crops and/ or plants, including land, constructions/houses and associated structures or not in the Right of Way (RoW) in Scattered area.
- IV. Survey and production of cadastral plan (Fiche cadastral for property without land title)
- V. Survey and production of charts or maps and submission of Charts or maps (shape files)

6. Execution of Tasks

- A. All the tasks should be executed under the supervision of Energy Development Corporation Limited and Funding Partners' standards and approved by competent authority. The valuation consultant will conduct the asset valuation and submit a draft baseline valuation report to EDCL/PIU for review, after which it will be forwarded to the funding partners, including the World Bank, for approval as part of the Resettlement Action Plan; once approved, the report will be sent to the District for expropriation approval before signatures are collected from PAPs and local authorities.
- B. Throughout the contract duration, the client will be at liberty to assign the consultant a task similar in nature according to the contract documents. For any assignment, the contract sum will always be calculated pro-rata i.e. based on the unit cost agreed upon.

C. The unit to be used in valuating will be provided by Institute of Real Property Valuers under the law related to the expropriation in the public interest in Rwanda. Payments shall only be made on a fully signed report by all stakeholders. Steps to be followed during the execution of this assignment are but not limited to the following:

- Meeting with the EDCL safeguards, and expropriation teams to agree on criteria of eligibility to the process (Discuss and clarify terms of reference).
- Meeting district authorities to discuss and agree on the asset inventory and expropriation process
- Meeting with PAPs to explain the methodology and criteria of eligibilities (proof /supporting documents to be provided).
- Site visit to assess the authenticity of the claims/ allegations submitted by citizens, and/ or endorsed by local authorities.
- Produce valuation reports and organize discloser sessions
- Produce valuation report with all required supporting documents and propose mitigative measures for unsolved cases.
- The consultant will assist the client in solving complaints raised by PAPs in the process of valuation by closely working with the Grievance Redress committees based at cell, sector or district level or other competent authority when deemed necessary.

7. DESCRIPTION OF ACTIVITIES

S/N	SUMMARY OF BILL OF QUANTITIES	Unit Item
1	Property valuation in Medium Voltage line should correspond to RSB Standards, and RURA guideline.	File
2	Property valuation in High Voltage line, Substations should correspond to RSB Standards, and RURA guideline.	File
3	Valuation of properties made by crops and/ or plants, including land, constructions/houses and associated structures or not in the Right of Way (RoW) in Scattered area.	File
4	Survey and production of cadastral plan (Fiche cadastral for property without land title)	File
5	Survey and production of charts or maps and submission of Charts or maps (shape files)	File
